Closing By-Law  
Hits Snag;  
Merchants to Meet

Committee Chairmen to Bring  
in Estimates at Next Meeting;  
Relief Cases Heard.

Regular meeting of the council was held on Tuesday evening in the council chamber. Present: Mayor or Antrobus, Councillors Abousafy, Balloch, Dutil, Ford and Jenkins.

Mrs. John Gamache was present and asked for temporary relief. Recommendation was made to place her on the three-way plan.

The mayor's action in authorizing a donation to the Sergeant Cawsey presentation fund was endorsed.

Councillor Dutil reported on his interview with the merchants regarding the closing bylaw. It had been brought to the merchants' notice that due to provincial legislation six p.m. was the earliest closing hour and a bylaw passed by the council to close at five p.m. would not be valid. Councillor Dutil also reported that the merchants may call a meeting among themselves to further discuss the matter.

John Mizira of West Coleman, sent a party to represent him at the council table to again ask council's permission to keep a car park within the town limits. The health committee will interview Mr. Mizira this weekend.

An offer was received from a West Coleman party to buy the vacant lot next to Steve Verskovy. Following a lengthy discussion regarding drainage should this lot be sold it was decided not to sell at the present time.

The Hatfield property in West Coleman was discussed. For the past several months it has been standing vacant. Works and property committees will inspect it and report at the next meeting.

It was decided not to incorporate the yearly fee for removal of ashes into the 1941 tax levy.

Fred Treka made successful application for relief work on the open air skating rink. He was granted two weeks' work.

Chairmen of the respective committees were authorized to draft their 1941 estimates and have them ready at the next meeting.

Miners Lose In First  
Play-Off Game to  
Blairmore 4-3

Fields Paced Locals With  
Two Goals; Hobson, Kubik and  
Favero Scored for Blairmore.

A fast skating heavy bodychecking game saw Blairmore Bearcats come from behind to defeat Miners 4-3 in the first of a home and home total goals series for the right to advance into the third round of the provincial playoffs.

Bill Fields paced Miners with two goals, Jenkins getting the other. Oakes, Hobson, Kubik and Favero each scored for Bearcats.

Fields gave Miners a good start when early in the first period he skated through the entire Blairmore team to score from close-in. Oakes evened up the score nine minutes later, when he uncovered some stick-handling wizardry to outguess the local defence and skate in on Slugg to score. Two minutes later Fields was again Johnny-on-the-spot when a rebound came out to him while he stood in the clear in front of Olson. He had no difficulty in scoring.

Miners pressed at the outset of the second period and Jenkins shot the rubber into a maze of players in front of the Blairmore cage, it hit a player and bounced into the net. Soon after, Hobson took Oakes' pass at the Coleman blue line to score.

Bearcats went all out in the last period and after six minutes of play Kubik connected with a golf stroke in front of Slugg to score the tying marker. Pietroszko was penalized and paved the way for a gangling attack in which Favero scored the winning goal.

East Coleman  
House Burned to  
Ground Wednesday

Narrow Escape For Occupants;  
Youngster's Hair Singed So  
Close Was His Escape; Covered  
by Insurance

A fire which came very close to ending in tragedy completely destroyed the home of Mr. and Mrs. John Sperlak in East Coleman at three a.m. Wednesday. Only some insurance papers and a washing machine were saved. The house, furniture and clothing was a pile of ashes on Wednesday morning. So completely had the fire destroyed the log structure that only half a dozen charred logs remained in addition to some bricks and a shrivelled heater and stove. Damage is estimated to be approximately \$1400 and includes home, furnishings and clothing.

The first warning of impending danger came when the 2½-year-old baby started to cry. By that time the kitchen was in flames and the parents and two children had to break the bedroom window and escape by that means. So close were the flames behind them that one of the children had the back of his head singed.

Mr. Sperlak a few moments later gained re-entrance into the building and saved some insurance papers and a washing machine. The building soon became a roaring inferno and the heat so terrific that the fence started to smolder.

The Sperlaks bought the building from Syd. Emery six months ago, having previously resided at West Coleman. The house was built with logs and had four rooms. At the present time the Sperlak family are residing with neighbors.

Ski Tournament to  
Be Held At Blairmore  
on Sunday

Dominion Amateur Champion  
Expected to Attend; Local  
Skiers to Compete

The Crow's Nest Pass Ski club will hold its first annual ski tourney on the ski run in Blairmore on Sunday, March 2. The club has a number of members from all towns in the Crow's Nest Pass and in Lethbridge. Several Coleman members will be competing. The tourney is open to members of clubs in the Kootenay ski zone which includes Trail, Rossland, Kimberley and Nelson in British Columbia, and points in southern Alberta. It is expected that many ranking skiers from districts outside of the Crow's Nest Pass will be present.

A party, open to the public, will be held in the Greenhill dining room in Blairmore on Saturday evening to entertain the visitors. Night flare skiing will take place that evening on the ski run. Competition commences at ten o'clock Sunday morning. Parking space will be available for cars in the sports arena about one hundred yards from the ski run.

S. C. Gunderson, Dominion amateur ski champion of Kimberley, is one of the stars expected to give a few exhibition runs during the carnival.

Sixteen Men Make  
Application For  
R. C. A. F.

Names and Other Particulars  
Taken; Await Instruction  
From Calgary.

Sixteen men, ten from Coleman, made application for the R.C.A.F. last Friday when recruiting officer Kennedy paid an official visit to Coleman.

Names and other routine questions were asked and the applicants now await instructions from military authorities at Calgary as to their acceptance. Those receiving instruction to proceed to Calgary will be given a medical examination in the city.

Mrs. Daly as been confined to her home for several days due to illness.

THE COMMON CAUSE IS FREEDOM

Miners Hockey Team in Serious  
Car Accident; Fleming Suffers  
Fractured Collar Bone

Three Other Players Receive Medical Attention; Play Canmore Following Smash-Up To Hold Opponents To 3-3 Tie; Second Game Here Saturday

An unfortunate accident occurred on Wednesday evening when the car driven by Wilfrid Dutil and occupied by several players of the Miners hockey team smashed up at a point known as "Death's Corner" 10 miles east of Cochrane. Fleming was the most seriously injured, suffering a fractured collar bone. Roughhead suffered two broken ribs, Jenkins chest and back bruises, and Bill Fields and Wilfrid Dutil escaped with a slight shaking up.

Elio Salvador, who was the driver of a second Coleman car, was called from Canmore to the scene of the accident and took the occupants of the smashed car to Canmore. Here the injured men were given medical attention, Fleming being sent back to Calgary for further examination. He is expected home this afternoon. Jenkins, Fields and Roughhead

were allowed to play in the game which was held up an hour to allow the Coleman team to get into uniform.

The fighting spirit of the locals was demonstrated when following such an experience they went on the ice and held their fresher opponents to a 3-3 overtime tie. Scorers for the locals were Beddington, Jenkins and Pietroszko. During the game one Canmore player's stick came in contact with Pietroszko's nose with the result that Bill required three stitches to close the wound. He was seen this morning with a badly swollen face.

Such courage as shown by these boys deserves the support of Coleman fans at the second of the home and home games total goals series to be played here on Saturday evening at 9.30.

Miners Played  
Canmore On  
Wednesday Evening

To Play Here Saturday at 9.30 p.m.; Winners to Meet Northern Champions for Provincial Title

Coleman will be in the throes of play-off hockey on Saturday evening when Canmore and Miners meet in the second of their home-and-home game series, total goals to count. Miners left early Wednesday morning for Canmore, where they played that evening in the first game of the series.

The second game here on Saturday will start at 9.30 p.m. and admission will be 50 cents for adults and 25 cents for juniors. Due to the heavy cost of travelling the team executive were forced to put the admission prices at those figures.

Players in uniform on Wednesday included: Slugg; Kwamie, Murdoch; Fraser; Jenkins, Pietroszko; Fields, Roughhead, Beddington; Fleming, J. Trots, Elek.

Roughhead will be playing his first game with the team after an absence of several weeks.

Tickets are now on sale for Saturday's game.

Five Men Accepted  
By Recruiting Officer  
On Monday

Coleman, Blairmore and Bellevue Men Accepted; Three Men Rejected; Three Others To Be Further Examined.

Recruiting Officer Major C. G. Davidson and his staff were at the Legion club rooms on Monday and received applications from eleven men to enlist into Canada's army. A medical board was present and applicants were given immediate medical examination.

Five men were accepted. They are—Bellevue: M. Breton and T. J. Price. Coleman: Fred Lees and E. P. Barrett. Blairmore: R. B. Marchant. Three others will undergo further medical examination possibly at Calgary; one a resident of Cowley, one from Trail, B.C., and the other a Coleman man.

Major Davidson and his staff left by bus Tuesday morning for Macleod.

Punch (c): "Japan is planning drastic steps in regard to China—steps that will surprise the world," says a Tokyo spokesman. Such a declaration war?

Not Depressed—Out To  
Win, States Old  
Country Lady

No Food Shortage, But Nothing To Waste; Windows Shattered By Bomb; Rain Soaks Bed Clothing.

Letters from Britain tell of the heroism and fortitude of the British people against the bombing raids of the Nazis. The following letter was received by a local lady from her sister who has been experiencing the blitz for several months.

"I am writing this while I am trying to keep awake as the lads are fast asleep with their clothes on ready to make a dash should the air raid siren go. Our raid shelter is sandbagged and heavily laden with tons of earth. One night a bomb whizzed past us as we tried to get into the narrow shelter.

I have not a whole window in my house and have an electric light burn all day in the living room. I have to have the front door open if I want to see day light in the hall. 50 slates, two chimney pots and thirteen bricks fell on our bed while we were in the shelter. All of our beds are wringing wet with rain.

We are not short of food, nothing to waste of course. Good organization serves everyone alike. We have a splendid anti aircraft defence and when there are waves of bombers shrieking falls around the house and gardens like rain and hail.

The railway tracks are close to me. Troop and Red Cross trains have given me good comfort. You would be surprised to see how cheerful the lads are."

Miners Advance To  
Third Round  
Provincial Play-Offs

Trounce Bearcats 5-2 Monday Evening to Take Total Goals Series 8-6; Penalties Costly to Bearcats.

Miners advanced to the southern Alberta intermediate final on Monday evening, when they trounced Blairmore Bearcats 5-2 in the second game of a home and home game series. Miners lost the first game Sunday evening 4-3, but won the series 8-6. They now meet Canmore in the final to determine the southern Alberta winners.

Bill Trots scored on Bill Fields' pass midway in the first period to tie up the series 4-4. In the second Kubik again gave Blairmore the lead, scoring on a pass from Price at the six minute mark. Two minutes later Jenkins and Murdoch combined to split the Blairmore defence. Jenkins beating Olson to tie the series once again. Continued pressure by the Miners gave Fraser his chance to get close in on Olson to score to put Miners in the lead.

Oakes put the teams on even terms again, scoring unassisted. It was following this that penalties proved costly to Blairmore. Kubik and Hobson were given successive penalties. Miners' power play clicked to perfection while Kubik and then Hobson took their turns in the cooler. Jenkins scored from Fields and thirty seconds later Fields converted Bill Fraser's pass to give Miners a two-goal lead in the series.

NIMCAN STARS AS LOCALS  
TRIM BLAIRMORE JUVENILES

Coleman Juveniles handed Blairmore Juveniles a 6-1 lacing at the local arena on Saturday night as the two teams played the first of a home and home total goal series in the first round of the provincial playoffs.

Outstanding for the locals was young Johnny Nimcan, who scored five goals. Considering that it was only the second game played by the Coleman Juveniles this year their marked superiority over their opponents came as an agreeable surprise to their followers.

Hector McDonald  
Died This Morning  
Of Heart Attack

Had Been Ailing Two Weeks;  
Was Superintendent at Mc-  
Gillivray Creek For Eleven  
Years

Hector S. McDonald, superintendent of McGillivray Creek Coal & Coke Co. mine, passed away at his home in Carbondale at 9 o'clock this morning. Death was due to a heart attack. Deceased, who would have been sixty years next May, had been ailing for the past two weeks.

Surviving are Mrs. McDonald and two daughters, Pearl, (Mrs. A. Forbes), and Jean, (Mrs. C. Tuttle).

Funeral arrangements have not been completed.

Lethbridge Juniors  
Win Crows Nest Pass  
Hockey Championship

Win Home and Home Games 2-1 and 4-2 For 6-3 Decision; Locals Fight Hard But Unable to Score.

Lethbridge Juniors reign as 1940-41 champions of the Crows Nest Pass intermediate league. They clinched the title last Thursday evening when they defeated Miners 4-2, after having won the first game at Lethbridge the previous Tuesday by a 2-1 decision.

Juniors took a 2-0 lead in the first period on goals by Speaker and Gibson. In the second period Miners showed more pep to their play and tied the score at 2-2 on goals by Murdoch and Beddington. They maintained the same torrid pace in the third period and for minutes on end kept well inside the Lethbridge zone. The locals were unable to get many real hard shots on goal, their plays for the most part ending up with the rubber slithering behind and around the net. Late in the period a break came to the Lethbridge team, when they got a break away with all Miners trapped at the Lethbridge end of the ice. Perry got the puck and passed to Tennant who streaked down the ice to give Slugg no chance. A minute later the same play again occurred, Negrello getting the puck out of the Lethbridge zone to trap Miners, Tennant taking the pass to again score.

COLEMAN MIDGETS SHUT  
OUT BELLEVUE 6-0

In an exhibition game at the arena on Saturday evening Coleman Midgets thoroughly outclassed Bellevue Midgets by a 6-0 score. The locals were so superior that the Bellevue youngsters were hard pressed to even get a shot on the Coleman goal, much less score.

This was Coleman's third straight triumph and their scoring average stands at 25 goals for and 2 against.

Blairmore Midgets have defaulted to the local club and Coleman will now meet Lethbridge in the second round of the provincial playoffs.

## Modification Necessary

The announcement by the federal government of its decision to cease all contributions towards the cost of direct relief as and from March 31 of this year came not only as a surprise but a distinct shock to the people of the prairie provinces.

The first reaction to the startling announcement of Hon. Mr. McLarty, Minister of Labor, was a feeling of consternation on the part of all those in the west who are well acquainted with the yet unliquidated unemployment situation on the prairies and financial inability of the provinces and municipalities to carry the full load, should there be no modification of this decision.

In the first place it should be noted that the decision is based on a false premise if the decision, as intimated by Minister McLarty, is actuated on the assumption that "unemployment is down now to the point where only really unemployable and partly unemployable men are out of work in the main."

In support of this contention Mr. McLarty quoted figures to show that out of 250,000 persons on direct relief in October only 62,500 were listed as employable or partly employable, together with the declaration that "since then the total had undergone further substantial reductions but official figures were not available."

Insofar as the prairie provinces are concerned it is well known that in October while harvesting operations are underway, or while if completed, relievers are still living on the proceeds of harvest work, unemployment figures are down to the lowest point of the year. In November and December, the relief rolls begin to fill up again and the incidence of unemployment reaches its peak towards the resumption of agricultural operations in the spring. That has been true throughout the depression decade and is still the situation, as perusal of provincial and municipal figures at the current time amply demonstrates.

### Problem Remains Here

Had Mr. McLarty confined his statement concerning the declining incidence of unemployment after October to Eastern Canada, where war industries are absorbing increasing numbers of the formerly unemployed, he would have stood on firm ground, no doubt, but it is not applicable to the prairie provinces as yet.

On the contrary, in Saskatchewan particularly and to a lesser degree in Manitoba and Alberta, the relief rolls have been growing since October, and the lists include a proportion of employable and partly employable unemployed. In all three prairie provinces, provincial and municipal authorities recognize the fact that they still face an unemployment problem, in which employables are a considerable constituent.

How long this condition will continue is, of course, unpredictable, but that it is a current problem on the prairies is undeniable. It is a condition which will have to be recognized by the federal government and some provision made for it, at least until the problem disappears or until such time as the provincial and municipal governments between them are in a financial position to take care of the entire load.

It is gratifying, of course, to find that over the Dominion as a whole the unemployment curve has been trending sharply downward in the last year or two. With the country at war when every able bodied man should be a real asset to the war effort, this downward trend should continue until every employable man and woman in the country is drawing wages for work. If it does not there is something wrong with the war effort or something wrong with the distribution of the war effort.

There is good reason to believe that this, now peculiarly Western problem, could have been solved had the conference on the Sirols-Rowell recommendations fructified instead of collapsing, but because the conference failed is no reason why some other method of approach should not be attempted.

### A Temporary Solution

Possibly a temporary solution of the problem may be found in some provision for transferring employable out-of-workers from the prairie provinces where they are not needed, to the east, where their services could be utilized to a useful purpose and an essential effort.

This possibility was well expressed recently by the Regina Leader-Post, in the following words, referring specifically to the problem as it exists in Saskatchewan:

"There are not only hundreds of unskilled workers but also a considerable number of trained tradesmen in this province who are without work. True, their condition is complicated by the fact that in many cases they are married men with families. But the fact remains that unless eastern industrial interests ease employment restrictions to the point of hiring them sight unseen, and something is done to assist them to get to available jobs, they will remain unemployed."

"Until employment service is put on a truly national basis, there will continue to be unemployment in some sections while others are crying for workers. There remains insufficient fluidity of labor in Canada at the very time when maximum movement is required. Something should be done about this."

What form assistance is going to take to enable the provinces and municipalities to assume a load which is beyond their ability to bear, may perhaps be known at Ottawa, but something will have to be done. No doubt, prairie representatives in Parliament will fully acquaint the powers that be with the situation and to such effect that the recent decision to cut off relief contributions will be modified.

### Not To Be Trusted

The Ottawa Journal says an Italian "Red Cross" aircraft shot down by a British fighter carried ammunition, gun parts and war correspondents. Apparently no more than the Germans can the Italians, inspired by the "sawdust Caesar" be trusted to observe the common decencies.

On January 18, two A.F. of L. unions had picketed the Brass Rail Restaurant, in the theatrical district of New York, for two years without interruption, and the strike is as far from settlement as ever.

A Haying Island fisherman and his son, who rescued a British airman from the sea, returned the National Lifeboat money as a gift to the lifeboat service.

**NO TEMPORARY RELIEF  
FOR ME...I'M THROUGH  
WITH CONSTIPATION!**

Yes, thousands of people suffering from constipation due to lack of the right kind of "bulk" in their diet have been able to get the same thing. For now there is a sensible way to correct this condition... far better than cathartics, which only give temporary relief. If you suffer from this common trouble, try eating delicious KELLOGG'S ALL-BRAN every morning. It contains the neces-

sary "bulk" to help you become "regular"... naturally! Why not do this? Get your KELLOGG'S ALL-BRAN daily... drink plenty of water... and discover for yourself how easily your old "trouble" disappears. Get KELLOGG'S ALL-BRAN! Available in two convenient sizes at all grocers! Made by Kellogg's in London, Canada.

## Tie up to Ogden's!

Old-Timers will tell you that, for rolling-your-own, Ogden's is a name to tie to for a really satisfying smoke. It has a taste all its own—richer, better tasting. That's because of its distinctive blend of choice, ripe tobaccos. Try it once. Then you also will tie to it; for it's not just another tobacco—it's OGDEN'S. And Ogden's means "more enjoyment."

Only the best cigarette papers—"Vogue" or "Chanticleer"—are good enough for Ogden's.

**OGDEN'S**  
FINE CUT  
CIGARETTE TOBACCO  
Pipe Smokers!  
Ask for Ogden's Cut Plug

## Grow More Flax

### Moderate Swing From Wheat To Flax Expected In The West

A moderate swing from wheat to flax production is expected on many prairie farms during the present year.

While Canada has an immense surplus of wheat, there is need for an increase of 1,000,000 bushels of flax if domestic requirements are to be met without imports.

Flax seed production in western Canada is quite a different undertaking from fibre flax production in eastern Canada. The latter is going ahead as a wartime job but western flax is of a different type and is valuable for seed only. The seed is mainly used for production of linseed oil.

For several years past Canada has imported about 1,000,000 bushels of flaxseed for oil purposes, mainly from the Argentine. If all the flax required could be produced in Canada, a substantial saving in foreign exchange could be effected.

Production of flax for seed purposes requires no special machinery. It can be handled with the standard grain binders, combines and threshers. Generally speaking, owing to smaller yields, a farmer needs to get about twice the price of flax that he gets for wheat in order to make its production equally profitable. Present price quotations show flax is worth slightly more than twice as much as wheat.

In 1940 Canadian farmers increased their flax acreage to 372,700 acres against 297,500 in 1939 and secured a production of 3,240,000 bushels against 2,075,000 in 1939.

In suggesting a further increase in production for 1941 the federal department of agriculture states that even if Canada produces a surplus of flax over domestic requirements it will find a market in the United States where production falls short of requirement by 15,000,000 bushels.

## Search Was Rewarded

### Expedition Finds Two Ancient Inca Cities High In Peru

"The city above the clouds" and "the inaccessible city," both lost since the ancient Inca civilization flourished in South America, have been found 12,000 feet up in the Peruvian Sierras, an expedition from New York reported.

The discovery, they said, promised to "uncover an enormous empire of the pre-Incas races" and added that in "sheer weight and magnitude" the masonry already unearthed rivaled "the Egyptian Pyramids and Angkor in French Indo-China."

The expedition reported that three to five feet of humus and a full-grown mountain forest covered the two ancient cities. Their site is a valley in the south central highlands north of Cuzco, across the Andes from Machu Picchu, where in 1911 the Hiram Bingham expedition from Yale University made important Inca discoveries.

Uncovered already in "the city above the clouds," the report from the expedition said, were three man-made masonry caves strikingly similar to "the place of the caves" described in Inca sagas as the point from which ancient Andean tribes began their career of conquest and civilization.

Above 25 per cent. of "the city above the clouds" has been excavated, expedition leaders said.

## Well Worth Salvaging

Canada Exported \$78,479 Worth Of Old Bones Last Year  
Maj. R. J. Watrous of Brantford, Ont., director of Canada's National Salvage campaign, pointed to the Dominion's 1940 export of bones to the United States as "an amazing instance of what Canadians can do with east-ofts to help win the war."

From five provinces, said Maj. Watrous, Canada sent to the United States last year 70,973 hundredweight of bones valued at \$78,479. Ontario supplied more than half the total—37,775 hundredweight worth \$47,931.

"It's really surprising," said the director. "This export means that more United States dollars are coming into Canada to help us along in our war effort. Imagine if every Canadian realized the value of the old bones and other junk he throws away without a thought!"

A circular issued by Hon. J. G. Gardiner, Minister of National War Services, announcing the salvage campaign, said that "the salvage of all household bones (other than fish bones) is now urgent. This material is used in the production of glycerine for explosives, glues and fertilizers, all of which are essential in the present emergency."

Maj. Watrous said; however, that while it was not a matter for his department to decide he did not think any attempt would be made by the Canadian Government to prohibit further export of bones.

"We are very glad to keep our markets open and bring in revenue," he said.

## Powerful Explosive

### Report That Britain Has The Secret Of A Devastating Formula

That Britain possesses the secret of a super-explosive is a fascinating possibility, which cannot long be concealed if the story given to the public is a true one. It first appeared in the New York Times and is to the effect that two young men, scientific workers at Cambridge University, Oliver Gatty and Alfred Stanley, had conducted experiments for some time with infinitesimal particles of a new compound which Gatty had produced. These experiments indicated that they had the most powerful explosive yet discovered.

Taking a somewhat larger, but still very small quantity into a field, and with what they believed were adequate precautions for their own safety and against unnecessary damage to property, they exploded the composition. The result was terrific. Houses were shaken and windows blown out half a mile distant. The two young men were instantly killed as a result of the concussion. Not even an abrasion was found on their bodies.

The formula of the explosive was found in its final form, in Gatty's desk and is now said to be in the possession of the British Government. The unbelievably devastating effects of the explosions in some of the raids of the Royal Air Force in Germany in attacks on military objectives may be caused by the use of this new mystery. Hamilton Spectator.

## SELECTED RECIPES

### SUPPER SALAD

- 1 cup uncooked macaroni
- 3 quarts boiling water
- 3 teaspoons salt
- 2 cups shredded raw cabbage
- 1 cup grated cheese (Old Canadian)
- 1/2 cup chopped sweet pickles
- 1 large unpeeled red apple, diced
- Bolled Salad Dressing

Method: Cook macaroni in boiling salted water until tender; drain and rinse. Chill. Mix with cabbage, cheese, pickles and apple. Add salad dressing to moisten (about 1 cup) mix lightly. Serve on lettuce with cheese rolls. Serves six.

### ALL-BRAN PEANUT BUTTER REFRIGERATOR COOKIES

- 1/2 cup peanut butter
- 1 cup butter
- 2 cups brown sugar
- 1 egg
- 1 cup all-bran
- 3 cups flour
- 2 teaspoons baking powder

Cream together peanut butter and butter; add sugar gradually and beat until light and fluffy. Add egg and beat well. Stir in all-bran. Sift flour with baking powder and work into first mixture, a small amount at a time. Knead and shape into rolls about 1 1/4 inches in diameter; wrap in waxed paper, covering ends so that dough will not dry out. Store in refrigerator until firm. Cut into thin slices and bake on ungreased cookie sheet in moderately hot oven (425 degree F.) about 10 minutes. Yield: 7 1/2 dozen cookies (2 inches in diameter).

Buy War Savings Stamps and be in on this struggle for freedom.

The only planet known to have a system of rings is Saturn. 2400

## Let Ol' Man Winter Be Your Chef

GIVE the family a special treat with the most tempting ice cream imaginable! It's cheap and simple to make! Mix a package of Jell-O Ice Cream Powder with a quart of half milk, half cream. Place the bowl outdoors on the window-sill in freezing weather. Stir a few times and let Ol' Man Winter do the rest. Grocers sell it in 5 delicious flavours. Clip out this recipe and order several packages from your grocer now.

## Documentary Films

### Films From Canada Are Shown In The United Kingdom

Documentary films have come into their own as a result of the war.

Government films and others produced by large corporations, showing life, scenery, industries, travel and war activities within the Empire have become the vogue in the United Kingdom and producers pay the supply barely meets the demand.

Difficulties in distribution of ordinary films, closing of many theatres, evacuation of large sections of communities and transfer of many men to the forces are some of the reasons for the increase in exhibition of these films. Most Empire governments contributed to the stock of documentary films but Canada, a pioneer among such producers, is the largest supplier.

After the last war the dominion government made the production and distribution of films an instrument of policy for educational purposes at home and abroad. The demand for these pictures has increased far beyond expectations since the present conflict began.

A school girl told her teacher the other day that the inhabitants of Ceylon were called Celanese.

## Air Cadet Corps

### Organization To Give Elementary Training To Boys

Details of organization of an air cadet corps to give elementary training to boys between 12 and 15 years of age are contained in an order-in-council tabled in the House of Commons.

Boys 12 to 14 will be formed into junior air cadet corps, while those 15 to 18 will be in senior corps. Each corps is authorized to train for not more than 30 days each year.

The order said emphatically the corps are not "liable to service in the R.C.A.F. in any emergency."

According to the statistics of railway dining cars, eggs and bacon is one of the most popular dishes in Scotland.

## Million Canadians Pledged To Buy War Savings Certificates

Smiths Falls.—Finance Minister Ilsley announced at a war savings rally that more than 1,000,000 Canadians now have pledged themselves to regular purchases of war savings certificates for the duration.

During the weekend regional committees whose quotas represent 52 per cent, of the national objective of 2,000,000 regular war savers, reported that 755,403 individuals signed pledges in the first three weeks of the February campaign.

"From one end of Canada to the other, Canadians have accepted war savings certificates as an expression of their will to victory," Mr. Ilsley said.

"If we are to keep faith with our armed forces, we must not only buy certificates regularly, but buy to the limit of our real ability."

Mr. Ilsley said that when local war savings committees completed their canvass this month, every important firm in Canada would be competing for the honor roll certificate, many had already qualified for the gold award, indicating 100 per cent participation.

At least 94 centres across Canada had exceeded their quotas in the first three weeks of February. In British Columbia, 10 centres were reported "over the top." Alberta seven, Saskatchewan 13.

In Saskatchewan, Oxbow reported a total of 1,576 pledges, exceeding its preliminary quota by several times. Other centres reaching their objectives were Whitewood, Cadillac, Alaska, Dundurn, Bruno and Dornrey.

Cardston, Alta., reported a total of 2,504 pledges against its preliminary quota of 350. Other Alberta points over their objectives were Warner, Raymond, Barons, Strathmore and Galahad.

Qualicum, on Vancouver Island, was leading British Columbia with 1,126 pledges against its preliminary objective of 250. Ocean Falls, Port Alice, New Westminster, Ashcroft, Quesnel, Sicamous, Kimberley and Salmo also were "over the top."

Toronto moved into the lead for the largest number of pledges obtained to date, reversing the order of the previous week when Montreal was on top.

Regina, 6,672; Saskatoon, 2,250; Calgary, 12,247; Edmonton, 9,923; Vancouver, 20,030; Victoria, 4,016; New Westminster B.C., 5,022.

**To Get More Training**  
Sydney, Australia.—Army Minister Percy Spender announced Australians liable for compulsory military service for home defence will have their camp training extended so that half of the commonwealth's military forces will be contingently under arms for any emergency that might arise.

Important tin deposits are a reported discovery in Egypt's eastern desert.

## Visit Of Anthony Eden To Egypt Considered As Highly Important

London.—Foreign Secretary Anthony Eden and Gen. Sir John Dill, chief of the Imperial general staff, were disclosed to be in Egypt on a visit deemed highly significant in view of the uncertain attitude of Turkey and Greece toward the threat of Nazi invasion.

Although pledges made to Britain by her allies, the Greeks and Turks, have caused no expressions of concern by the British government, neutral diplomatic sources said there has been a feeling in London that a show of arms by the Germans in Bulgaria might force the Greeks into peace negotiations with Italy.

Such a move by the Germans, it was added, certainly would lead the Turks to believe that their national cause would best be served by "watchful waiting" on their defensive line in Thrace.

It is to gather together the strings of British diplomacy in the Balkans and Middle East, it is felt here, that Mr. Eden has been sent to Cairo.

Gen. Dill, neutral sources say, probably will assure both the Turks and Greeks that Britain's military resources, far from being exhausted by the Libyan campaign, are strong

### National Income Higher

Preliminary Figures For Last Year Show Increase Over 1939

Ottawa.—Preliminary figures for 1940 indicate that Canada's national income was \$554,600,000 higher than the 1939 national income of \$4,039,600,000, it was disclosed in statistics designed to bring up to date the financial basis of the Stairs report on Dominion-provincial relations.

The statistics were tabled in the House of Commons by Finance Minister Ilsley.

The statistics also forecast for 1940 improvement in current account financing of eight provinces, only Alberta showing a higher deficit than in 1939. A surplus was forecast for seven provinces, compared with three in the preceding year.

In tabulating the documents, Mr. Ilsley said in the case of provinces where revenues and expenditures for 1940 were not available, estimates or forecasts made some months before the close of the fiscal year had been used.

In some cases it was apparent the estimates might be subject to considerable revision, and the government had hesitated to make the material public. Conservative House Leader Hanson asked that they be made available.

### Greeks Perplex Italians

Captured Planes In Action Source Of Worry To Fascists

With the Greek Army on the Northern Front, Albania.—One of the big jokes Greek aviators get out of this war is bombing the Italians' front lines with reconcondioned planes captured from Il Duce's army and repainted with Greek markings.

The Greeks say it is getting so the blackshirts never know whether to shoot, duck or wave a friendly greeting when one of their own Savoia-Marchetti flies over.

The Greeks have several trimotored Italian bombing planes flying in the air under Greek colors. They make their own plans when they need them.

### No Official Comment

But Reports Say Britain May Use U.S. Naval Repair Docks

Washington.—Reports that United States naval repair docks will be thrown open to the British fleet under the wide terms of the lend-lease bill are current in Washington.

There apparently is no official backing for the reports beyond President Roosevelt's broad policy of all-out aid to Britain and the suggestion of Wendell Willkie, the Republican candidate in the November presidential election, that destroyers be sent to Britain at the rate of five to 10 a month.

enough to open and maintain a new front in the Balkans.

Every assurance is understood to have been given to Greece within the last two weeks that Britain is not only willing to continue her air support to the Greek army but is able to throw a high number of divisions into the Grecian campaign.

Mr. Eden, whose visit to Egypt last autumn preceded the grand offensive into Libya by the imperial army of the Nile, is expected to remain in Cairo or nearby for "a week or two."

The fact that he is accompanied by Gen. Sir John Dill, chief of the Imperial general staff, means that the main problems to be discussed will be military ones, the London informant said.

He would not comment on a suggestion that Mr. Eden might see Turkish leaders while in the Middle East.

Britain's capture of eastern Libya, the informant said, involves a host of administrative problems, and Mr. Eden is a fluent speaker of Arabic and moreover the ideal man for the job of cleaning up odds and ends in the wake of the military occupation.

It is his third visit to the Middle East since the war began. 2400

### Response Gratifying

Collections On Advance Income Tax Payments Now Total \$50,000,000

Ottawa.—Revenue Minister Collin Gibson announced that up to Feb. 18 \$50,000,000 had been received by the government in advance payments of income tax, provided for in an eight-month instalment plan.

Of that amount, he said in a statement, \$40,000,000 came from corporations and \$10,000,000 from private individuals.

"Public response to the provisions made by the government for payment of income tax on the eight-month instalment plan has been even greater than was apparent at Jan. 31, the final date for payment of the first instalment," the minister's statement said. "At the end of January, advance payments amounted to approximately \$35,000,000. During the first 18 days of February that figure rose to \$50,000,000 with income tax collections at the rate of \$1,000,000 a day."

### Tanker Destroys Sub

Crew Of British Ship Scores Victory Over U-Boat

London.—The crew of the little tanker Cardita can count a victory over an unidentified submarine which attacked the vessel after she had become separated by gales from her convoy.

The U-boat was discovered in a heavier trough only 500 yards from the British ship and apparently was attempting to manoeuvre into torpedoing position. The tanker commander, Capt. R. L. Bruce, shouted orders to fire and the ship's gun let go.

The sub submerged twice and apparently tried to get beyond the tanker's gun range. When she reappeared at 2,000 yards the British gunners were ready and the first shell sent up a huge spout of what appeared to be oily water. The sub was not seen again and the tanker reached port.

### Occupies Third Place

Former British Ambassador To Germany Says Hitler Not Leader

Oxford, Eng.—Sir Neville Henderson, pre-war ambassador to Germany, told an audience here the order in which he would erase the Nazi leadership—and Hitler was listed third.

"If I were given a gun and told to take two shots," Sir Neville said, "I would shoot Himmler, then Ribbentrop, and brain Hitler with the butt of the rifle."

The former ambassador said he considered Heinrich Himmler, the head of all German police, and Foreign Minister Ribbentrop the real leaders of Germany—ahead of Hitler. "There is no question," he said, "of internal revolution in Germany. You cannot raise a revolt against machine-guns and tommy-guns. . . . There is something I can see breaking and that is Hitler himself."

### GRAVELLY ILL

Doctors agreed that the condition of former King Alfonso XIII, of Spain was most serious on Feb. 15, following a heart attack, the second within a week. The former king, who is living in Rome, recently gave up his right to the throne in favor of his son Juan, Prince of Asturias.

### Under R.A.F. Control

Airport And School At Moose Jaw Independent Of Common-wealth Flea

Ottawa.—The airport and training school at Moose Jaw is being operated by the Royal Air Force independent of the British commonwealth air training plan, under an arrangement whereby the United Kingdom government has assumed all liability for construction and maintenance.

This reply was tabled in the House of Commons in answer to a question by E. E. Perley (Con., Qu'Appelle).

Up to now a total of \$1,528,936 has been expended on the airfield, buildings and camp facilities, the return said, with construction operation directed by the department of transport and the department of national defence for air.

"This is one of certain training schools of the Royal Air Force which have been moved to Canada from the United Kingdom, by arrangement between the government of Canada and the United Kingdom, independently of the British commonwealth training plan."

"It is not possible for security reasons," the reply added, "to give details of this movement."

### Trial At Vichy

London.—A "big trial" of officers who had joined the Free French government of Gen. Charles de Gaulle will be held at Vichy, the British Broadcasting Corporation said, quoting a Vichy report received at Berlin.

### Australian Casualties

New York.—A broadcast by the Australian radio heard here by CBS, said army headquarters at Sydney had listed Australian casualties overseas at 969, including 190 killed, 749 wounded, 20 missing and 10 held as prisoners of war.

### STILL ON THE JOB

Somewhere in England, Queen Elizabeth is shown stepping from a Hudson bomber at an R.A.F. coastal command station during a tour of inspection. She is assisted by an R.A.F. sergeant, who was thrilled at meeting his Queen.

## Ethiopians In Action Against Italians Bore Emperor's Colors

### Britain's Air Infantry

Parachutists Are Hand-Picked Men Who Receive Special Training

Somewhere in England.—Britain has created a great "infantry of the air," parachute troops, trained to drop from aircraft and enter into prompt action, either harassing the enemy or carrying out missions to pave the way for attacks by other branches of Britain's armies.

Dropping of parachutists in Italy, revealed for the first time that this army exists. It has been secretly trained and will play an important role, military officials predict, when Britain takes the offensive in other theatres of war.

The leather-clad parachute men, tested and hand-picked, are in a special category. They receive higher pay than an ordinary private in the British army who gets two shillings sixpence daily (about 50 cents) plus allowances for efficiency in special qualifications and risks.

The exact amount received by the sky daredevils has not been disclosed. In fact everything about them has been cloaked in deepest secrecy.

The Daily Mail said that Sqdn. Ldr. Louis Strange, 48, a veteran of the last war, who learned to fly in 1913, is the brain behind the parachute organization.

### Reaches High Level

Orders For Army Clothing Boosted Consumption Of Wool Products

Ottawa.—Consumption of wool products in Canada during 1940 reached the highest level of the past 10 years, according to a report issued by the Dominion bureau of statistics.

The high level of consumption in 1940 resulted largely from government orders for clothing for the armed services," the report said.

The 1940 consumption totalled 101,616,000 pounds, compared with 64,900,000 pounds during 1939. The report said consumption during the five-year period 1934-1938 averaged 61,858,000 pounds a year. Total wool production during 1940 was 18,127,000 pounds compared with 17,846,000 pounds in 1939.

### Food Rioting In Paris

London.—Women carrying babies crowded around town halls in Paris suburbs and demanded milk, while food rioting broke out at several points in the city, the British Broadcasting Corporation said, quoting Vichy reports. The BBC said the women were dispersed.

### May Purchase Wool Clip

Bradford, Eng.—Reports circulated here that the British and United States governments are considering a plan for joint purchase of all South American wool clips for the duration of the war to prevent the wool going to Soviet Russia for possible subsequent transfer to Germany.

With the Ethiopian Regular Army.—Emperor Haile Selassie's regular troops led by South African officers got their first "blooding" in an attack on an Italian fortified position at Dangila, in the Lake Tana sector of western Ethiopia.

The emperor's trained soldiers joined irregulars and a Sudanese frontier battalion in the assault, carrying into action the colors presented by the negus the day before the battle.

The Fascist garrison had been already half evacuated when the combined forces started operations. For several days previously, camel trains had lugged guns, ammunition and stores to the foot of the Gojjam escarpment and from there on mules packed the supplies to the mountain top where Royal Air Force bombardments destroyed the Italian lines and enabled the Ethiopians to penetrate them quickly.

Cairo.—British forces invading Italian Somaliland now have breached Italy's Juba river front in two places, general headquarters announced, and "operations from both these bridgeheads are developing satisfactorily."

The point of the new crossing of this natural defence line was not disclosed, but it was said to have been north of the original cross-river thrust, which was in the Gelib area, north of the rivermouth town of Chisimaio, now held by British troops.

### Estimates Are Reduced

But Finance Minister May Need More For War Services

Ottawa.—Finance Minister Ilsley shaved more than \$150,000,000 from the actual estimates for war services in the next fiscal year when he compiled his \$1,300,000,000 war appropriations bill, he told the House of Commons.

Mr. Ilsley said if necessary he would come back to parliament for a supplementary appropriation before the end of the year. In introducing the resolution preliminary to introduction of the bill, Mr. Ilsley explained it was impossible to estimate expenditures closely for a year ahead owing to the uncertain factors of war, such as wastage.

### Boast About Workers

Berlin.—A Nazi spokesman boasted that Germany at the beginning of the war had more armament and munitions workers than Britain and United States combined. He declined to get down to specific figures, but claimed that between April and September, 1940, Germany had trained an additional 126,000 workers.

### Financial Aid For Malta

London.—G. Hall, under-secretary for the colonies, told the House of Commons that \$4,450,000 will be provided as a grant to aid the people of Malta to strengthen their protection against air raids.

## United States Moves To Strengthen Her Air Power In The Pacific

Washington.—Swift steps will be taken to strengthen United States air power in the Pacific, it was reported here while Shanghai accounts told of new Japanese military movements southward.

Both army and navy fighting planes of the latest type are to be despatched to the Pacific fleet, Gen. George C. Marshall, United States chief of staff, was said to have disclosed to the senate military affairs committee at a secret session.

Some committee members said he described the Far Eastern situation as "serious" and also said army and navy chiefs had no intention of stripping American defences to speed up war equipment deliveries to the British.

Reinforcements of air fighting units in the Pacific and legislation just passed for building up defence outposts at far-away Guam and Samoa were regarded in some circles as parallel to recent British moves to strengthen defences at the Singapore naval base and in the northern Malayan peninsula.

Number of planes to be despatched to the fleet was not disclosed.

New York.—The New York Herald Tribune says approximately 200 American-built Lockheed and Consolidated bombing planes, originally intended for the Royal Air Force in England, are being flown from California ports across the Pacific ocean to Singapore.

The paper says it learned, too, that 70 Curtiss P-40 pursuit planes, latest and fastest standard American army air corps fighters, are being transported by sea to Nationalist China, while 12 retired United States navy pilots had landed in the Netherlands East Indies to act as flying instructors.

The bombers intended for Singapore are being flown to Hawaii by American civilian pilots taking various routes from such ports as San Pedro and San Diego, the Herald Tribune says. They are built on the Pacific coast.

The flying instructors now in the Netherlands East Indies were exempted from actual military service and guaranteed \$10,000 a year for two years above all taxes and transportation expenses, according to the paper.

### C. A. T. S. Notes

The Coleman Cats have received the interesting information that there is every possibility that the women's organization will soon be recognized as part of the Army. Not only this but eminent government officials are considering the merits of sending Canadian women overseas to release men for active service. Thousands of clerks, stenographers, drivers and cooks could be used. There is little doubt that the C.A.T.S. will be among the first to receive recognition.

To the girls of Coleman this is an incentive to harder work, and class attendance has already shown improvement. Their drive to raise funds for uniforms is going forward and another grand dance is being planned for a week-end after Lent. Whist and bridge drives will fill in the time between. One payment has already been made and the uniforms should be here for Easter, at which time the Coleman group has been invited to

spend a week-end with the Calgary members.

Mrs. E. Reid of Calgary, formerly of Coleman, who is the chief organizer for the province of Alberta, is trying to make arrangements for a summer camp. This will give the girls an opportunity to learn camp cooking on a large scale. There are still eight vacancies in the Coleman group and anyone interested is cordially welcomed to join the ranks.

### Guide Notes

Anxious to share in the help being sent to England the First Coleman Guide Company has sent another parcel to headquarters, where it will be grouped with other Guide parcels to be sent to England. In December we sent 28 articles of underclothing for children from two to eight years of age. Last week our parcel was made up of baby clothes—18 diapers, 12 nightgowns, 2 knitted jackets, 2 pairs knitted "woolies" and two crocheted bonnets.

Twice this year we have made dressings for the local surgery. The new method of Patrol credits is operating quite successfully. A rearrangement of patrols has been made as follows:

Marguerite Patrol—P. L. Shirley Hubert. Forget-me-not—Frances Dibblee. Bluebell—Betty McEwen. Daffodil—Pauline Korchuska. Shamrock—Louise Aboosafy. Cadets—P. Emmerson, T. Williams, J. Williams and E. Hoyle, alternately.

Patrol Boxes are proving very popular just now. Each box contains material to be of use to the Patrol—and seem to include everything from a box of aspirin to a shoe brush—one even had a stick of gum last week, but Captain did not count that.

The books in the library are steadily increasing in number. We would be glad of a few more "members." We now have 96 books on the shelves. Anyone wishing to obtain books may do so on Tuesday and Friday evenings from 6:30 p.m. to 7 p.m. at the home of Miss W. Dunlop, 3rd St. Rates are 1c

for Guides and Brownies, 2c for others.

### Theatre Notes

"WATERLOO BRIDGE" A new and exciting romantic team ... Robert Taylor and Vivien Leigh ... co-starred for the first time. A picture well directed and casted, which places the story in London during the First World War. It's the tale of a tragic and unfortunate love which will find lacy handkerchiefs fluttering in all its showings. This is her first role since "Scarlett O'Hara," and Vivien Leigh again thrills in a film portrait of emotional fire teamed with handsome Robert Taylor. Showing at Cole's theatre, Bellevue, Saturday-Monday-Tuesday, March 1-3-4.

"R.N.W. MOUNTED POLICE" With deep appreciation, all Canadians realize what the Royal Mounted Police stands for, what it has achieved in the past and what it will accomplish for Canada now and in her future. Filmed in beautiful technical to show you the exact details of the colorful regalia and the grand scenic views to be seen only in Canada. Action! Adventure! 10 great stars! 1000 unforgettable thrills! Two glorious love stories! The picture every Canadian should see! The greatest spectacle ever witnessed! The finest evening of entertainment ever enjoyed! Showing at the Palace Saturday-Monday, March 1-3.

"JOHNNY APOLLO" Your two favorite actors co-starred in a metropolitan melodrama. You've listened appraisingly to Dorothy Lamour crooning over the radio programs, and enjoyed it. Here she plays the role of a racketeer's girl who is also a night club singer. Tyrone Power is cast in the role of another grand performance, that of a criminal ... the first since "Jesse James." The father he idolizes in prison! Friends turned against him! He turns to a life of crime! Only this girl guessed what is in his embittered heart. Did crime for him pay? See this melodrama of events for yourself ... it's a fine performance! Fast-moving drama that keeps all interested throughout the entire evening. Showing at the Palace, Tuesday-Wednesday, March 4-5.

REV. E. B. ARROL, CHAIRMAN OF LETHBRIDGE PRESBYTERY, UNITED CHURCH OF CANADA

Rev. E. B. Arrol, B.A., of Blairmore, was elected chairman of Lethbridge Presbytery of the United Church of Canada at the convention held at Lethbridge on Monday. Attending from Coleman were Rev. J. E. Kirk and Mr. and Mrs. Neil McKinnon.

### Schools Inspector

A. Reeves Addressed Lions Club

Talks on New Method of Education and Its Results; Frank Hastie Moved Message of Thanks

Inspector Arthur Reeves of Pincher Creek school district, was the guest of the Lions Club at their banquet on Tuesday evening. He chose as his topic "Progressive Education."

Inspector Arthur Reeves was a very interesting and enthusiastic speaker, well qualified for making such a talk. He is a very ardent supporter of the new teaching methods that are being introduced. He opened with a short account of how schools were managed in the past, not only in Canada, but in the U.S.A. and abroad. Results, to date, have proven that the present system is turning out better students; students that can qualify for their respective "Life Duties" with a greater knowledge; a knowledge that has been attained through practical work and not just through reading alone. The student now learns by doing.

Following the old method a student passed to another grade according to his exams at the end of the year. Now a pupil is passed on what he actually does through the year; not only in his educational ability, but in his physical and social activities. They learn to work as a group. The new method gives the student more freedom and movement. They get to know one another and how to work with one another.

This new method, according to Mr. Reeves, is by no means working out to the best satisfaction as yet. It can still be improved in many ways. For one thing the teachers find it very difficult, as they are not familiar with the new teachings and therefore cannot bring the children up to standard as well as they might. This new method is much more expensive and takes in much more work, as far as the teachers are concerned.

He pointed out the reaction of children upon the arrival of an inspector at a school. They become afraid. He gave his own opinion on that and said that he could not understand just why they acted that way. He tries to make them take a different attitude and even plays the old odd game of ball with them in order to chase their fears away and look upon him with a different aspect.

A brief discussion on the topic took place, followed by a message of thanks given by Frank Hastie. —Contributed.

### WEDDINGS

BARNES — WILSON

The marriage of Norah Kathleen (Tommy), youngest daughter of Mr. and Mrs. J. E. Wilson, of Victoria, to Major Robert F. Barnes, formerly of Coleman, took place at Victoria, B.C., on February 12th. They will take up residence at Camrose, where the major is stationed at a military training camp. —Blairmore Enterprise.

### SIX ORGANIZATIONS TO UNITE IN SOLICITING FUNDS IN 1941

Six organizations have decided to unite in their appeal for funds to carry out their 1941 programs. The objective has been set at \$5,500.00. The organizations uniting are Canadian Legion, Y.M.C.A., Y.W.C.A., Salvation Army, Knights of Columbus and the I.O.D.E.

### LIQUOR PRICES RAISED

Liquor prices have been raised on certain brands of imported stock it was stated by J. A. King, chairman of the Liquor Control Board. Higher invoice costs were the cause of the increases he said. "We have been absorbing these higher costs for some time, but have done so as long as we can," he said, adding that on some lines this policy of absorption will be continued. Higher manufacturers' costs and higher insurance rates on imported brands have shown their effect.

Annual convention of the Alberta School Trustees' association held in Edmonton brought a patriotic resolution demanding legislation which would make obligatory regular patriotic exercises in schools, including saluting of the nation's flag.

## A Voice From The Range

Wonders if Lindbergh and  
Saturday Evening Post  
Linked With Totalitarianism.

Out here on the range, in the winter time, when the evenings are long, after we have attended to all the chores, we have quite a bit of time to read the papers and listen to the latest happenings in the world. When we heard the report, of the once famous Lindbergh's testimony before the United States congressional committee on the Lease and Loan Bill, we just naturally got a little riled up. We used to think that this chap was quite a "feller," when he flew over the pond all by himself and made a safe landing on the other side, and we still admit that he deserved the world-wide acclaim that he received and when he made his second trip over to England, we were right proud of the hospitality that our cousins there extended to him.

We hate to see our heroes of yesterday go plumb back on us like he has done, and we were quite prepared to keep on lauding his exploit, had he not opened up his mouth and then forgot to close it again, and just let it keep on voicing opinions about things that must be way above the capabilities of the grey matter we presume must be concealed somewhere above the aforementioned moustache. His remarks favoring a negotiated peace with the double-dealers that control the Axis powers, do not give evidence of the employment of the top part of his dome, other than a place to exhibit the latest creations in men's millinery. We have heard that this feller, Lindbergh, was raised in the west somewhere, but by golly, we folks out here in the last great west want it understood that if he was, we're not at all proud of any westerner that watches a highbinder like this Hitler degenerate, start to fuss just as he is anything but loose and grab all his neighbor's range and stock and make pens of all the people and then try to help the hell drunk cuss out by advocating that the whole thing be called a draw.

Of course this fair-weather aviator is not alone in his views, as a certain periodical has been very prominent of late, printing editorials which are anything but complimentary to the British Empire. We used to look forward to getting the Saturday Evening Post but now we only read it to find out what new totalitarian ideas this editorial genius has hatched out or has had concocted for him, for it is just as well, in these hectic days, to know who is for us and who is agin us.

We are not going to take the trouble to quote any of this chap's insulting remarks, as most folks have either read them or have been told about them and sometimes we long for the good old western days with the original western ways when editorials such as this chap pens, would call for the application of a well-aimed kick from the toe of a serviceable riding boot in the direction of his southern exposure and the confiscation of his tobacco. We hasten to assure our cousins in that great seat of democracy across that unfortified and nearly invisible boundary to the south of us, that we do not take at all seriously, the rantings of Lindy and the Post "feller," as we figure they are just like a couple of blind boils on the neck of democracy; they likely will be all het up for a spell and cause quite a bit of unfavorable comment, but eventually they will subside and like all pests, take their place among the things we won't even try to remember.—W.R.C.

## IT'S THE SPIRIT OF THE THING

(By W.L.M.)

When we think of bombed cities; shiploads of our fellow humans sinking to watery graves; innocent refugees mowed down by machine-guns; we almost choke with horror and loathing. We are shocked to the bottom of our idealistic souls; and rightly, for we thought at last we had built a civilization that was worthy of the name, and most of us were sitting back complacently, content and satisfied with ourselves and our world. And then war broke—something we swore could never happen again!

For a few fearful days fear gripped us. Fear of what? Of our efficient and merciless enemy? Or was it the thought of losing our money, our homes, our possessions? Or was it the thought of endangering our lives that we feared, or the thought of the hardship and sacrifice we might have to make?

We turned our brows and strove to pierce the future; but our limited minds could envisage nothing but uncertainty; a future that seemed long and hard and bitter; a future that would mean toil and hardship and flowing streams of blood before it ended—if it did.

## TEXTILES in Action!

The enormous total of 32,000,000 lbs. of these and other vital war materials already shipped to Britain, South Africa, Australia and the Canadian Government is Dominion Textile's record since the war started.

11,200 of this company's 13,960 employees buy War Savings Certificates regularly.

## DOMINION TEXTILE COMPANY LIMITED

But gradually a new spirit began to surge through our blood, and through the nation. It was the same identical spirit that our ancestors knew when they set out in crude ships for the unknown country of Canada; when they plodded courageously into the wilderness to carve out a home with little more than what they could carry on their backs.

Their lot was hard and life uncertain. Danger, threatened from all directions. Food—fished and two-footed enemies lurked in the forests; sickness and disease was an ever present threat with little to combat it but courage; accidents in the vast spaces with no help at hand in the winter, starvation.

They may have faltered, but they never quit, and steadily from morn till night they worked to build a something for their family and to see that their children got a better start. And in their turn the children worked and planned and built, and it was to their combined efforts that we owe our present comforts that we owe our present comfortable civilization, and a social system wherein every man has the opportunity to build his own character and destiny.

True, it has plenty of faults, but is it not for us to carry on from where our ancestors left off and build towards the high ideals they set for us?

The social system they built did not come into being in a day; nor a year; nor even a generation! It was the result of hard and bitter experience; of trial and error; of bloodshed and sacrifice—but they built a great foundation on which made an excellent start on the edifice, and now it is up to us to carry on with our share.

At present the foundations and edifice they worked so hard for are threatened, and we must rally forth to protect it even as our ancestors fought tooth and nail to protect their humble homes and families. Now as then we must band together and fight as one if we are to survive. We must be willing to risk our money our homes, our possessions, and—if need be—our lives. The prospect isn't pleasant, the future isn't bright, but once more the spirit that burned in our forefathers' breasts is kindled in ours—and our ancestors never quit!

In those days they had little to build a home. Now, we not only have our lives and our homes to fight for, but that great foundation of ideals that was on its way to completion.

We still have that to work for, and it's pleasant work, and interesting; but for the present we must concentrate all our efforts to fight

## TO WIN BUSINESS YOU MUST ADVERTISE

The stores which are doing the business and which are operating at a profit are with few exceptions those which consistently advertise in their community newspapers. It is wise to follow the example of city merchants who have built business from small beginnings to important establishments by the use of daily newspaper advertising.

STIRRING WORDS FROM HON.  
R. B. HANSON, K.C., M.P.

Strenuous days lie ahead, 1941 will be the most momentous year in the history of Christendom. During this year the fighting forces of the Mother Country, aided and supplemented by those of Canada and the other self-governing Dominions will strive to reach parity, if not superiority. When that time comes, then will the real battle of Europe begin; then will come sacrifice and out of sacrifice Victory.

And through all our effort, in its good days and in its bad days, let us neither be flushed too soon by victory nor drop with despair under adversity.

Our enthusiasm must not be allowed to wane.

From time to time the results of our increased effort must be examined and every avenue explored to the end that no retrogression shall take place.

## Bombs Cannot Destroy Our Traditions or Faith

The British Empire is founded firmly on Christian traditions of liberty, freedom, tolerance and mutual understanding. That is the faith that is in us. Bombs and shells cannot destroy it. That faith, backed by the united resolve of an aroused people cannot be overcome. We admit our mistakes but we are proud of our past. We are straining every effort in the present and we are confident of our high destiny in the future.

Let us keep in our minds and in our hearts that memorable and

ringing Christian message given to us in 1939 by His Majesty King George:—

"I said to the man who stood at the gate of the year: 'Give me a light that I may tread safely into the unknown,' and he replied, 'Go out into the darkness and put your hand into the hand of God. That shall be to you better than light and safer than a known way.'"

Guided and encouraged by this thought, we march forward—a citizens' army, our goal freedom; our purpose liberty and justice for the whole world.

It's the Truth  
Teacher: "What's a blotter?"  
Student: "Something to hunt for while the ink dries." —The Swamp-scotta.

## THE Only CAR IN THE WORLD

that combines  
these great features

### NEW FULL-FLOW, BUILT-IN PERMANENT OIL CLEANER

This new kind of cleaner is the first oil cleaner ever developed which cleans all the oil before it reaches the bearings. Good for the lifetime of the car, it's two to three times more efficient than other cleaners. No new filter "cartridges" to buy, no service required.

AN EXCLUSIVE FEATURE ON ALL 1941 PONTIACS

### Most Advanced KNEE-ACTION FRONT WHEELS

Standard on all new Pontiacs is Knee-Action, indispensable for supreme riding and driving comfort. In fact, a whole combination of features make a Pontiac ride really sensational. Deep rutted roads and detours one usually avoids hold no terrors to the Pontiac owner.

### PONTIAC'S SUPER L-HEAD ENGINE

(90 Horsepower)

All 1941 Pontiacs have this famous engine with its torrent of smooth, whispering power... a "power-house" under the hood that is as thrifty as it is dependable. Many new advancements have resulted in even finer performance... with record gasoline and oil economy.

### "TORPEDO" STYLING - CONCEALED RUNNING BOARDS

New dynamic "Torpedo" styling makes possible longer, lower, wider United Fisher Bodies for new amazing comfort, safety and convenience. Running boards are concealed... away from ice, snow, mud.

## Yet Pontiac's Priced with the Lowest!

Yes! You'll search in vain for any car that combines these advantages, heading the list of 95 outstanding features, standard on all Pontiacs for 1941. Yet, there's a Pontiac to fit the needs and purse of every new car buyer. Prices start with the lowest for the sensational, new Fleetleader "Torpedo", in two new models: Fleetleader "Torpedo" and Fleetleader "Torpedo" Special. Priced just slightly higher are Pontiac De Luxe models. And you can depend that any Pontiac you choose will prove a carload of value! Why not drop in and inspect these great Pontiacs today?

WORLD HAPPENINGS  
BRIEFLY TOLD

The Australian government has pushed plans for organization and training of returned soldiers as a home defence corps.

A proposal to put the seized guns of New York's criminals into the hands of Great Britain's defenders won consideration of the state.

A Canadian air official disclosed more than 1,100 Americans are taking part in the British Commonwealth air training plan under way in Canada.

An agreement between Italy and Vichy France for mutual reduction of tariffs to a minimum level was brought into effect by decree. The agreement also applies to Algeria, Morocco and Tunis.

A senior Royal Air Force officer said fine types of Polish airmen are arriving in Palestine, after making their way to the Holy Land over devious routes and across enemy frontiers.

First Lord of the Admiralty A. V. Alexander announced a system of scholarships which will enable boys of poor families to enter Dartmouth Training College which turns out the navy's officers.

The British admiralty announced it had been informed two German destroyers, in addition to the nine originally announced, were sunk in the two battles of Narvik, Norway, last April.

British pilots described as civilians rather than Royal Air Force men, are being trained by commercial flyers in United States to operate the huge American-made bombers now being delivered to Britain.

The import ban on all used motor vehicles has been lifted as regards used motor buses to avert a possible shortage and to save foreign exchange, it was disclosed in an order-in-council tabled in the House of Commons, Ottawa.

## Many Birds Winter Here

Investigation Shows Something of The Bird Population in Winter

While it is true that the majority of Canadian wildfowl and feathered songsters fly across the border every autumn to winter somewhere south of the Dominion, investigation shows that many birds remain in Canada during the season of ice and snow.

Counts made by experienced volunteer observers last Christmas at 14 Canadian centres, scattered from Nova Scotia to British Columbia, recorded 36,000 birds of 111 different kinds. While these observations provide a fair sample of the winter bird population for analysis, they represent only a small fraction of the total for Canada. The most abundant bird life in the Dominion in winter is found along the coast of British Columbia, the southern coasts of the Maritime provinces, and in southern Ontario. The largest single report this winter came from Hamilton, Ontario, where more than 11,000 birds were noted.

Because the 1940 Christmas period was mild and rainy across Canada, many birds that seldom stay when the winters are cold were observed. These include the robin, phoebe, meadowlark, white-throated sparrow, killdeer, horned lark, blue-winged teal, great blue heron, and blackbirds.

Canada had 1,397,272 telephones in service at the end of 1939, an average of 12.35 telephones per 100 of population.

The circumference of the largest standing tree in the United States is 36 feet.

## MICKIE SAYS—

IS TH' SMALL CITY ON TH' SKIDS? I ODE, NOT AS LONG AS WE BUY MOSTLY AT HOME—BUT IF A MERCHANT AIN'T WILLIN' TO ADVERTISE, 'N BACK UP HIS ADS WITH GOOD SERVICE AN' UP TO DATE STOCK, THEN HE GANT HOLLER 'BOUT FOLKS SHOPPIN' OUT OF TOWN

## War Material Costs

Purchasers Of War Savings Certificates Can See What Their Money Will Do

For the benefit of Canadians who wonder how far their war savings certificates purchases will go in this age of mechanization the munitions and supply department issued the approximate cost of several instruments of war.

For instance every time a fighter pilot fires 100 rounds of .303 ammunition, the equivalent of one \$5 Canadian war savings certificate has gone into the battle against the enemy. A 50-pound bomb costs from \$80 to \$220, depending on the type.

A complete Bofors 40-millimetre anti-aircraft gun costs some \$12,500. Each complete round of ammunition for this weapon costs about \$6. Big brother of the 40-millimetre gun is the 3.7-inch quick-firing gun, costing roughly \$70,000. Every shell it fires means a \$20 expenditure.

"Purely nominal prices have been fixed by the British air ministry, for purposes of public subscription campaigns, on Spitfire and Hurricane fighters and British bombing planes, the former at \$25,000 and the latter at \$50,000," the department said.

Elementary trainers such as the Tiger moths and fleets used in the British commonwealth air training plan, cost between \$3,000 and \$8,500, while advanced trainers, such as the Harvard, run from \$30,000 to \$35,000.

The fine silk parachutes of the seat pack type used by Canadian airmen are worth about \$235 each. Universal carriers, which run on caterpillar treads and which now are considered as indispensable equipment of the modern infantry unit, cost about \$5,000 each. The Bren machine guns mounted in the carriers are worth about \$450 apiece.

Heavy infantry tanks, veritable land battle cruisers, run between \$90,000 and \$100,000 complete. The ordinary three-ton army truck which fills a variety of needs in mechanization of the land forces, is worth about \$1,500. The cost of equipping a full infantry battalion of 41 officers and 896 other ranks for service in the field, including personal equipment, motorized transport, universal carriers, Bren machine guns, and general stores, falls just under the \$300,000 mark.

A minesweeper costs about \$755,000, while a corvette is worth approximately \$550,000. A Fairmile patrol boat can be obtained for about \$130,000.

## The Safest Investment

War Savings Certificates Will Help Protect All We Value

Hon. Norman A. McLarty described war savings certificates as the "best investment on earth" and said all other investments would be worth "not a single brass cent" if the cause of Empire should fail.

"If we should fail, bank deposits would be but digits and ciphers and foolish ledgers," Mr. McLarty told a public meeting in Kirkland Lake, Ont. "Bonds and securities would be but useless papers, shares of stocks would be but fractional interests, and our jobs merely the enforced toil of conquered men."

The Minister of Labor said the real basis of currency value was "our people's ability to work, our people's skill to produce." It was also the assurance, he said, that "no nation and no group of nations, however powerful they may be, can ever smash that combination of nations that makes up our commonwealth."

"It is the confidence that in this desperate fight in which we contend against mighty foes we shall give back blow for blow—and in the confidence that the last blow, the final blow, the knockout blow, will be ours!"

## Reforestation in B.C.

Planting Millions Of Seedlings On Denuded Forest Land

British Columbia, Hon. Wells Gray announces, will plant 6,000,000 fir seedlings on 6,000 acres of logged-off lands this year, and 10,000,000 next year, presumably on 10,000 acres or so.

British Columbia has now about a million acres of young forest and about a million acres of denuded forest land. Each 12 months, her loggers strip another 30,000 acres or more of forest land.

It is obvious from these figures that reforestation in this province must go ahead at a rate much faster than 10,000 acres a year if we are to keep up with logging, let alone catch up with any of the denuded million acres—Vancouver Province.

Fires are often built of whalebone in the Aleutian Islands, off Alaska—wood is scarce.

## Hot Springs Attract Tourists

Springs At Banff Among The Most Radio-Active Waters On Continent

Bathing and swimming facilities at the hot mineral springs in Banff National Park were made use of by 106,000 persons during 1940, an increase of 21,000 over 1939, reports the Department of Mines and Resources. By reason of their therapeutic qualities, these famous springs have attracted visitors from all parts of the world for more than half a century. It was their discovery in 1883 by railway construction engineers which prompted the establishment of Canada's first national park when an area of ten square miles surrounding the springs was set aside as Rocky Mountain Park.

The hot springs of Banff rank among the most radio-active waters on the North American continent. There are four main springs in all—the Upper springs, the Kidney springs, the Middle springs, and the Cave and Basin springs. The Kidney and Middle springs have not been developed but at the Cave and Basin and Upper springs magnificent outdoor swimming pools and bath-houses have been constructed. The bath-house and pool at the Cave and Basin springs is usually open from May to September while the Upper springs remain open the year round. Even in the winter months skiers and others engaged in winter sports take advantage of the opportunity to relax in the soothing waters. The springs issue from the rocks with temperatures varying from 85 to 115 degrees Fahrenheit, and the average flow of the four chief springs has been estimated to be in excess of 40,000 gallons an hour, or almost a million gallons a day.

It is said that these hot springs were known to the Indians long before the coming of the white man, and there is a legend that old and rheumatic grizzlies discovered that the warm waters eased the ache in their ancient bones. The Palliser Expedition to the district in 1860 reported the presence of warm mineral springs in the Bow Valley, but it was not until 1883 when the transcontinental line of the Canadian Pacific Railway penetrated the Rockies that their existence and value were definitely established.

## The Fuehrer's Hideout

Hitler Has The Safest Air Raid Shelter In Berlin

All of us are familiar with pictures showing the British Prime Minister walking alone, unescorted and unguarded, through the devastated areas, even while the bombs are falling, careless of risk for himself. What about Adolf? We are told about the Hitler refuge by William L. Shirer who represented the Columbia Broadcasting Company in Germany from the beginning of the war. Here is how he describes the Fuehrer's hideout when the British fliers are overhead:

"The best air raid shelter in Berlin belongs to Adolf Hitler. Experts doubt that he could ever be killed in it. It is deep, protected by iron girders and an enormous amount of reinforced concrete, and is provided with its own ventilating and lighting plant, a private movie and an operating room. Were British bombs to blow the chancellery to smithereens, cutting off all apparent escape from the cellar, the Fuehrer and his associates could emerge safely by simply walking through one of the tunnels that run from his shelter to points several hundred yards away."

## Award For Bravery

Women Of England Are Qualifying For George Medal

Two women in England have been awarded the George Medal. One is Rose Edge of Waltham who worked for more than half an hour to rescue a baby trapped in a demolished farmhouse. The other is Betty Quinn of the Coventry St. John Ambulance brigade. Although bombs were falling, she assisted in rescuing seven persons trapped in an Anderson shelter and attended to their injuries.

## Insect Pest Control

The control of insect pests is one of the main problems that comes with intensified farming. Forest insects, which present an enormous problem, also come under the purview of the Dominion Department of Agriculture. A protective system is maintained by the Department to prevent the introduction of foreign pests into Canada.

"Your friend Joe seemed to be the life of the party." "Yes, he was the only one who could talk louder than the radio."

The little toe has one more bone than the big toe. 2400

## A BUTTON-FRONT SHIRT-FROCK

By Anne Adams

The one indispensable style in any wardrobe is a shirtwaister! And if you haven't a smart, spic 'n' span new one, you need this good-looking frock right now! It's an Anne Adams design. Pattern 4650, and outstanding for its simple, quick sewing and its trim becoming lines. That front-facing, gives a wonderful full and slim illusion and makes the frock perfect for "hurry-up" dressing, without musing your curls. The skirt has panels at both front and back for slimming effect and extra fullness. Notice the darling bow the yokes and the gathering above the waist, which keeps the softness of the bodice in place. You may use either a collar or rounded revers, and have short or three-quarter sleeves on this useful, smart style!

Pattern 4650 is available in women's sizes 34, 36, 38, 40, 42, 44, 46 and 48. Size 36 takes 3 1/2 yards 3 1/2 inch fabric.

Send twenty cents (20c) in coins (stamps cannot be accepted) for this Anne Adams pattern. Write plainly Size, Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg, Newspaper Union, 175 McDermott Ave. E. Winnipeg.

## A Happy Re-Union

Father And Son Meet After 22-Year Separation

William Last, Toronto, and his son, William, Jr., were together again after 22 years. At the end of the war, Last, whose wife had died, left his nine-year-old son in England with relatives while he came to Canada.

When they met at Malton airport in Toronto, the son recognized his father at once from a picture he had received in a recent letter. Last did not recognize his son until he walked up to him and asked: "How're things dad?"

William, Jr., is a member of Britain's merchant fleet and took part in the evacuation of Narvik. He was on a boat that brought British soldiers out of St. Nazaire, France, at the time of the Dunkirk evacuation. He is now engaged in convoy duty in the Atlantic.

The father-and-son visit was short because William, Jr., has to return to Halifax. He flew to Toronto and returned in the same way.

## Leather Industry

Horse, cow, calf, sheep, pig, goat, lamb deer and mule skins were utilized by the Canadian leather glove and mitten industry which, according to the latest compiled statistics for 1939, turned out among other products 583,609 dozen pairs of leather gloves and mittens.

The number of hogs on farms in Canada at December 1, 1940, was the highest ever recorded, the total being 6,117,200 an increase of 28 per cent. over the number reported on the corresponding date in 1939.

## SUNDAY SCHOOL LESSON

MARCH 2

THE AUTHORITY OF CHRIST

Golden text: Why call we me, Lord Lord, and do not the things which I say? Luke 6:46.  
Lesson: Luke 19:1-20, 8.  
Devotional reading: Matthew 7:21-29.

## Explanations And Comments

**The King Exercising His Authority,** Luke 19:45, 46. Jesus did not linger long at Jerusalem. His time was growing short and he must hasten. He entered Jerusalem, tradition says, through the Golden Gate. This gate in the eastern wall was found walled up in the time of the Crusades and was opened only once a year, on Palm Sunday. It is now kept closed. Jesus entered the temple, not the Holy Building itself, but the outermost court called the Court of the Gentiles, so called because Gentiles as well as Jews were permitted to enter. When Solomon's temple was built so great was the reverence for the House of God that the blocks were made ready in the quarry that they could be put together without noise. That reverence was a thing of the past now. In the outer court of Herod's temple animals were sold for the sacrifices and money was changed for the offerings. The temple market arose from the need of meeting the necessities of pilgrims from afar, for not only must they have their money changed into Jewish coins, but they must secure for sacrifices beasts and birds duly certified as "clean."

Jesus declared that the temple which should be a house of prayer had become a den of robbers. **The King's Authority Questioned,** Luke 20:1-8. Chief priests, scribes and elders came to Jesus as he was preaching to the people in the temple and demanded to know what authority he had for doing these things, who had given him this authority. By "these things," they meant the preaching and healing in the temple, and the driving out of the traders.

To answer a question by asking another was a familiar method of reasoning of which Jesus often made use. "Tell me," he now said, "the wisdom of John was it from heaven or from men?" This was a pertinent question, for John the Baptist had spoken with authority had denounced such as religious teachers, and had baptized; how had they settled the question of his authority? If they acknowledged the divine authority of John, his forerunner, that would settle the question as to His authority. They found themselves in a predicament: an acknowledgment of John's authority from heaven would draw forth the question, "Why did you not believe him?" and if they said, "From men, the people would turn away from him and stone them." They believed that John was a prophet. Had they spoken the truth, they would have had to say, "We dare not question him," they said, "We do not know." Since they claimed to be unable to settle the authority of John the Baptist, they had no right to question the authority of "a greater one than John," and Jesus refused to answer their question as to his authority. He stood upon his dignity in dealing with insincerity.

## Labels Tell The News

Advertising British Made Goods Imported To Canada

A Yorkshire sweets manufacturer with a considerable export trade has shown me samples of the kind of labels put on his goods when they arrive in Canada. The labels are chosen by the importers and illustrate how eager the Canadians are to encourage our trade.

Three samples are before me as I write. Each is about 18 inches broad by nine inches deep, and is boldly colored in red, white and blue. The picture of a warship is at one end and in the far corner is a Union Jack.

The most striking features of the labels, however, are the slogans printed in large red letters on a white background. One of these is worded, "Buy British to Beat Barbarism"; another reads, "Escaped the Submarines," and the third, "Conveyed by the British Navy."—Leeds Yorkshire Post.

## Good Market In Mexico

Manufacturers In Canada Have Opportunity To Supply Carpets

Due to the war, "a good opportunity is afforded Canadian carpet manufacturers to enter the Mexican market," states A. B. Muddiman, Canadian trade commissioner at Mexico City, in a report to the federal department of trade and commerce.

Stocks of European carpets which were bought in New York when hostilities broke out are now greatly reduced and several firms are looking for new sources of supply, says Mr. Muddiman. Quite recently one Canadian firm established connections in this territory.

Total imports are on a fairly large scale and there is a demand for modernistic types.

Il Duce, says a Rome report, congratulated Hitler on the eighth anniversary of his rise to power. It is not on record that Hitler congratulated Mussolini on anything.

**Health LEAGUE** presents **TOPICS OF CANADA OF VITAL INTEREST**

CABBAGES AND STRAWBERRIES  
SOURCE OF VITAMIN C

The old scourge of scurvy, soldiers and explorers, namely scurvy, which was caused by lack of fresh fruits, vegetables and fresh food generally and for which lime-juice (really lemon juice) was a specific, is now readily prevented by the use of either cabbage or strawberries.

Of strawberries from three to five ounces (say 30 berries) or about one to four ounces of cabbage daily will suffice to prevent scurvy. Many other foods, such for example as spinach, turnips, or potatoes do equally well.

On his first great voyage of discovery Captain Cook, the celebrated navigator, insisted that his sailors should use soups made from wild celery and other plants. He set the example by eating wild celery himself and those of his crew who despaired were given the rope's end.

The saving agent in fresh foods, fruits and vegetables is ascorbic acid. Both strawberries and cabbage are amply supplied with this acid. The berries have from 36 to 65 milligrams (one-one thousandth of a gram) of ascorbic acid in each 100 grams of the fruit (a gram is a little over 15 grains). In cabbage the proportion runs from 48 to 181 milligrams to the 100 grams.

A common way in which to provide vitamin C for children is to give them daily allowance of orange juice, or other fruit juices and tomato juice. All these juices deteriorate on standing exposed to the air, so they should be freshly prepared. This is particularly true of tomato juice.

## A Scathing Indictment

Contempt For German Intellectuals Voiced By Polish Violinist

There have been numerous indictments of German intellectuals who have sided with Hitler, or who at least have remained silent before many of his atrocious crimes against his own people. It is doubtful, however, whether any of these has been expressed in such scathing terms of contempt as those employed by Bronislaw Huberman, a Polish violinist who is giving a series of recitals in Canada in aid of funds to help the Polish soldiers interned in Switzerland, as well as to equip a Polish hospital. In an open letter addressed by Huberman through the Manchester Guardian to Dr. Furtwangler, the well known Berlin conductor, who had protested against Huberman's condemnation of the brutalization of large sections of the German population, the violinist wrote:

"Before the whole world I accuse you, German intellectuals, you non-Nazis, as those truly guilty of these Nazi crimes, all this lamentable breakdown of a great people—a destruction which shames the whole white race. It is not the first time in history that the gutter has reached out for power, but it remained for the German intellectuals to assist the gutter to achieve success. It is a horrifying drama . . . German spiritual leaders with world-citizenship . . . men called to lead their nation by their precept and their example, seemed incapable from the beginning of any reaction to this assault upon the most precious possessions of mankind . . .

"And when, to cap it all, demagogical usurpation and ignorance rob them of their innermost convictions from their own spiritual workshop, in order thereby to disguise the embodiment of terror, cowardice, immorality, falsification of history in a mantle of freedom, heroism, ethics, science and mysticism, the German intellectuals reach the pinnacle of their treachery; they bow down and remain silent . . . Must, then, the Catholic Church in Germany battle alone in their truly heroic struggle for Germany's honour tradition and future?"

Comment is needless.—Montreal Star.

## Police Kept Busy

A policeman on duty at a busy cross-road in the West End of London finds his work very exacting. Hundreds of Army lorries pass his corner. He says that over half the drivers are from the provinces and have never been to London before. One of them wanted to be directed to Piccadilly. "You're in it," answered the cop.

**MEET MY NIGHT WATCHMAN!**

"Jim Barton would drink coffee any time you'd make it. So I soon welcomed him to my nighttime stay-awake! Caffeine nerves wouldn't let him sleep a wink... that is, until he heard about Postum. Curses! He kicked me out in no time when he switched to Postum instead of coffee and tea."

Many people can safely drink coffee and tea. Many others—and all children—should never drink them. If you are one of these, drink delicious, economical Postum. See how much better you feel!

**POSTUM**

Delicious on Cereals, Porridge, on Bread, in Milk, etc. 45¢

## AGENT IN SABOTAGE

BY CRAIG RICE

(Copyright)

### CHAPTER VIII.

"What time did you leave the office, Miss Ellis?"

"About twenty after twelve."

"Why were you there after the noon whistle blew?"

"I told you, I had work to finish."

"Then another policeman took it up. Was Mr. Grimshaw in his office when you left?"

"Yes, he was."

"How do you know?"

"I could see him through the door. It's a glass door."

"You didn't go into his office before you left?"

"No, no, of course not."

"The same questions, over and over. The same curious stares that had been directed at her ever since she had walked into the manager's office and found him shot."

"Where did you go when you left the office?"

"Downstairs to the luncheon."

"Then at last, the question she had been dreading."

"Why are you working in the office under an assumed name?"

"Managing somehow to look surprised. 'What do you mean?'"

"Your name isn't Nancy Ellis, is it? It's Nancy Thorne, isn't it?"

"Yes."

"You've called yourself Nancy Ellis only since you went to work in the Bristol office. Isn't that right?"

"Yes, it is." Her voice was so low she could barely hear it herself.

"Why did you change your name?"

"It was so hard to explain, especially to those unfriendly, suspicious police officers. 'I didn't want anyone to know I was John Thorne's daughter.'"

"Why?"

"Because I didn't want the other girls to know I'd been rich. I wanted them to think I'd always had to work for a living."

Her questioners stared at her in cold disbelief.

"You're keeping something from us. What is it?"

"Nothing. I'm not keeping anything from you." She realized her voice was rising in a kind of helpless hysteria.

"Why did you—"

"What are you doing to this poor child?"

She turned her head to look at the speaker who had just entered. It was John Bristol, his white hair rumpled, his usually ruddy face very pale.

"This is utter nonsense," he said indignantly. "She knows nothing about it except that she happened to discover the body."

"What are you doing to this poor child?"

She turned her head to look at the speaker who had just entered. It was John Bristol, his white hair rumpled, his usually ruddy face very pale.

was impossible. He was already in it up to his neck."

Up to his neck. That was the phrase Tom Cantwell had used to Pat.

"It's very simple," Hugo Blake said. "He made himself very useful by obtaining certain important information at various times. The girl who was fired, Louella Hill, assisted him. She was a stupid girl and aroused suspicion and was fired. That frightened Grimshaw and he tried to back out of his bargain." He laughed, a loud, unpleasant sound. "That kind of bargain can't be broken."

Somehow she kept her voice calm. The charming Hugo Blake had suddenly become a frightening stranger. "You know, he—" she hated to say Grimshaw's name—"he tried to talk me into leaving my job. I didn't know what he meant. It was almost as if he was warning me."

"He was warning you?" Hugo Blake said. "A kind impulse, no doubt, but a most unnecessary one. People who keep to their bargains have nothing to be afraid of." He flashed a merciless grin at her.

"Who did shoot—"

"That's Grimshaw? That isn't important. You needn't worry your little red head about it—you won't be involved."

She nodded.

"Feel up to talking about business now?"

"Yes, perfectly."

"That's good. Now get all of this clear in your head, so you won't make any mistakes. There's a shipment of great importance leaving with the Bristol plant soon, maybe in a day or two, for a factory in Detroit that makes airplane motors. The time that shipment leaves the plant may be kept secret up to the last minute. You must find out just when it is to leave and let me know immediately. That's all."

"I understand. But—if you're in the loading department—"

"I just want to make sure I'm on hand when the truck leaves. Because I'm going to drive it myself."

He laughed mirthlessly. "That truck will contain dies to be used in the manufacture of airplane motors. I told you there were better ways than overturning trucks. That only delays the motors being turned out. This way they'll be turned out all right."

"But—they won't be any good?"

He looked at her and suddenly his round face seemed neither amiable nor dull. His little eyes flashed at her through their thick glasses.

"You're a smart little girl. Just the tiniest bit of difference in a certain die would mean every motor turned out would be defective. Yet no one could know until it was too late."

Again that mirthless laugh. Suddenly his voice changed, became strangely harsh.

"Is it something because of the things that have been happening—"

He waited a moment before answering. "Yes. It is. Grimshaw was—never mind."

"They rode in silence for a while. Was she doing right, she wondered, in keeping her secret to herself? It was true she had no proof of what she had discovered, but still—"

"Uncle John?"

"Yes, child. What is it?"

"Is there anything I could do—to help find out what is going on—to find out who—"

"No!" He almost shouted. "There isn't a thing. And I'd lose my mind worrying about you if I thought you were trying to do such a thing. You'd end up by doing more harm than good anyway." His voice and body softened. "I'm sorry, Nancy. I didn't mean to roar at you. But this whole thing has me half crazy."

"Uncle John?"

"Yes, child. What is it?"

"Is there anything I could do—to help find out what is going on—to find out who—"

"No!" He almost shouted. "There isn't a thing. And I'd lose my mind worrying about you if I thought you were trying to do such a thing. You'd end up by doing more harm than good anyway." His voice and body softened. "I'm sorry, Nancy. I didn't mean to roar at you. But this whole thing has me half crazy."

### Soybeans In Industry

Enters Into The Production Of Many Useful Articles

The soybean is a very versatile crop. In recent years it has found an important place in industry, says F. Dimmock, Division of Forage Plants, Central Experimental Farm. The ripe seed is processed to extract the oil, for which a great many uses have been found. The soybean oil meal, or that part of the bean which remains after the oil has been extracted likewise has many uses.

Soybean oil is utilized in the manufacture of soap. It is also finding an increasing use in the preparation of paints and varnishes. It is a rich source of lecithin, which enters into the making of ice cream candy, cosmetics and other articles. It finds its way into the household kitchen in the form of salad oil, prepared mayonnaise, shortening and margarine. It may be present as a constituent of the linoleum which covers the floor.

The great bulk of soybean oil meal is used as a source of protein for livestock feeds. A considerable quantity is used in the production of soybean glue which is important in the plywood industry. Many plastic compounds incorporate soybean protein and only recently upholstery has been woven from fibre made exclusively from soybean protein. Fibre may be made either from soybean meal or from the beans themselves and may be high or low in fat content according to the production process. An important characteristic of soybean fibre is its near freedom from starch which makes it valuable in certain diets. Soybean milk is likewise made from either the oil meal or the whole beans. Its special properties have made it valuable as a diet in certain cases of infant feeding.

### In Occupied France

French Soldier Says Any Food Sent To France Will Be Used By The Enemy

Le Travailleur, a weekly published in Worcester, Massachusetts, prints these words from a French soldier:

"I beg of you do not believe the lies contained in our Press and on our radio which are either in the hands of the Nazis or under their orders. Do not let yourselves be moved by our sufferings due to food restrictions. Send nothing to France. Whatever you send will reach our enemy. We shall suffer all privations and this will be our contribution to British victory, a treason from which the means to fight. Help the British Empire with all your resources and all your strength. The spirit of evil must disappear for ever. The beast must be killed. You will I am sure prevent the realization of Hitler's monstrous dream of world domination and you will contribute towards restoring to France her independence and her honor."

### Apple Pie For Breakfast

As a result of consistent calls for it, the Hotel Brooks at Brattleboro, Vt., now lists apple pie on its breakfast menu each morning. A good old New England custom revived. Not a few guests put in daily orders for it, though those from outside that region are stunned by the idea.

## FEMALE PAIN

Women who suffer painful, irregular periods with nervous, moody spells due to functional cause should find Lydia E. Pinkham's Vegetable Compound a very valuable remedy to relieve such distress. Pinkham's Compound has been reported to help weak, tired women relieve their difficult days. Over 1,000,000 women have reported amazing benefits. **WELL WORTH TRYING!**

### Mail Must Go Through

Under Difficulties

A regular postal service is part of Britain's war effort and everything is done to ensure that delivery of mail is not held up whatever the enemy may do to interfere with it. The workers whose job it is to keep this essential service running are daily and nightly facing the rigors of war, defying blackout, transport troubles and bombs.

The general postal office employs about 250,000 men and women. Their names are unknown but by their unostentatious bravery in staying at their posts, they are enabling Britain to carry on.

The railways, on which the post office largely depends for distribution of mails, are a special target for enemy bombers. The night mail trains are loaded from the dimly-lighted platforms of stations which are often subjected to bombardment.

Recently an important night mail was being made up during an air raid. Hundreds of thousands of letters and parcels had already been stowed in the train when a high explosive bomb fell, displacing the platform and blocking the train. An oil bomb followed, adding to the confusion. In the darkness they made some investigation and found that there was a very real danger that part of the station roof might collapse. Nevertheless, the postal staff scrambled out of the train and immediately began carrying the sacks to other trains. Soon after one of these sustained a direct hit and a number of letters and parcels were destroyed. One of the staff was buried under the wreckage but the rest carried on, salvaged what they could and put it on its way.

If a postman's customer's premises have been bombed he will make private enquiries of his own, if necessary, to discover their whereabouts. One often sees a postman standing amid a heap of wreckage copying from a card tied to some twisted girder, the new address of a firm he had known for years. In bad weather and in air raids he carries on.

### GEMS OF THOUGHT

ACTIONS

The actions of men are like the index of a book; they point out what is most remarkable in them.—David Thomas.

I have never heard anything about the resolutions of the apostles, but a great deal about their acts.—Horace Mann.

Deliberate with caution, but act with decision; and yield with graciousness, or oppose with firmness.—Colton.

Thought is the essence of an act, and the stronger element of action; even as steam is more powerful than water, simply because it is more ethereal.—Mary Baker Eddy.

It is vain to expect any advantage from our profession of the truth if we be not sincerely just and honest in our actions.—James Sharpe.

The chief value of superior knowledge is that it leads to a performing manhood.—Boove.

### A Remarkable Instrument

Searchlight Picks Out Darkened Bomber At Great Height

The United States army possesses a "remarkable instrument" for accurately directing anti-aircraft fire. Lt.-Col. Paul H. French, executive officer of the 68th Coast Artillery, said in a broadcast address.

Describing the operation of an anti-aircraft regiment, he told of searchlights "capable of picking out a darkened bomber at heights (on a clear night) as great as five miles" and added:

"We have accurate and sensitive sound locators for the listener stations."

"Each gun battery in its regiment has a remarkable instrument called a director, a sort of mechanical mathematical wizard, the ground equivalent of the much-talked-about American bomb sight, capable of figuring out the exact point, where, under a given set of conditions, our shells and the approaching enemy planes should meet."

The officer did not reveal whether the instrument worked at night or only in the daylight.

A musician says he sleeps under his piano during air raids. He is glad he didn't take up the flute, says Punch.

Canada's income in 1940 was \$4,800,000,000 or an average of \$487 per head of population.

Gibraltar has an area of only two square miles. Its population is 17,000.

## IF YOUR NOSE "CLOSES UP" TIGHT AT NIGHT

HINDERS BREATHING—SPOILS SLEEP

### 3-PURPOSE MEDICINE

Here's mighty good news... If your nose "closes up" at night and makes breathing difficult, put 3-Purpose Vicks Vapo-Rol up each nostril. Vapo-Rol does 3 important things: (1) shrinks swollen membranes; (2) soothes irritation; (3) helps flush nasal passages, clearing clogging mucus, relieving transient congestion. It brings more easy sleep, makes breathing easier, invites sleep. ...And remember, it helps prevent colds from developing in the first place.

**VICKS VAPOROL**

### HOME SERVICE

ART OF PUBLIC SPEAKING MAY BE STUDIED AT HOME

Practice Gives Speaker Poise

How mortifying—to stammer a poor speech, then have a brand-new club member rise and speak with delightful ease.

Lack of poise in public speaking can be such a handicap in club life. Yet you could become as self-assured as anyone by learning a few rules, practicing a few tricks before your mirror.

With head up, look straight at your reflection and speak boldly, throwing your tones to the front of your mouth. Just as easy to face an audience that way—instead of looking timidly at the ground, muffling your voice.

## LOCAL AND GENERAL NEWS ITEMS

Mr. Hugh Dunlop has again commenced work after two weeks' illness with the flu.

H. C. McBurney, Wilfrid Dutil and Elio Salvador drove the hockey team to Canmore on Wednesday.

Nick Nicholas, Sam Sagoff, Pete Nakoff and Bob Nakoff were Calgary business visitors on Monday.

Pte. Matt Brennan and Pte. Wm. Hatfield of the Canadian Royal Artillery, Edmonton, were home on leave at the weekend.

David Smith and Bob Emmerson are now stationed at Calgary with the R.C.A.F. They expect to be sent east in the near future.

John Rogers left for Calgary on Tuesday morning, having received instructions from R.C.A.F. authorities to come to the city for a medical examination.

A meeting of the music festival committee was held last evening in the Greenhill hotel in preparation for the festival to be held on April 28, 29 and 30.

Wilber Cox has been transferred to Brandon where he is in training as a gunner. He is stationed at the same depot as another Coleman man, Douglas Plante.

The Ladies' Auxiliary of the B.E.S.L. held a successful whist drive on Friday evening. Prize winners were Mrs. T. Rose, Mrs. R. Tiffin and Mrs. Wm. Marland.

Boost the Miners' hockey team by attending the game Saturday night. They are deserving of your support. By their efforts a provincial hockey title may again come to Coleman.

Tony Cacciolone and Joe Saad left on Wednesday morning for Medicine Hat. On Friday, Feb. 28, they will leave for Montreal to start work at a munitions plant. Both have served their three months' training period at the Hat.

Mr. and Mrs. A. Beveridge and Mr. and Mrs. J. J. McIntyre will attend the diamond wedding anniversary of Mr. and Mrs. John Hoggan, of Bellevue, on Thursday evening.

The Red Cross dance held each Saturday evening is fast becoming the most popular dance in town. Young people from all Pass towns were to be seen in attendance last Saturday evening.

Mrs. Stewart Murdoch was hostess at a bridge party held at her home on Friday evening. Four tables were in play. Prize winners were Mrs. H. Willett, Mrs. Dafee and Mrs. V. Collagrosso.

Sentinel Motors, dealers in Ford and Mercury cars, have sold 24 machines to date. The sales are well distributed throughout the Pass. Seventeen deliveries have been made, four at Michel, one at Crows Nest, three in Coleman, three in Blairmore and six at Bellevue.

Jim Kerr and Bob Burt have been busily engaged during the past couple of weeks building row boats. One has been completed and a second is still under construction. Jim hopes to have real enjoyment this spring and summer boating on nearby lakes and indulging in his favorite sport of fishing.

Dr. Victor Rosinski, of Montreal, was here over the weekend and addressed meetings of the Polish Society in the Pass towns. He is touring Canada, obtaining historical data and general information on the Polish people for publication in book form. On Saturday a banquet was held in the Polish hall, East Coleman, in his honor. On Sunday he addressed meetings at Bellevue. Dr. Rose was a guest at the Coleman gathering. In addition to his own language, Dr. Rosinski speaks fluently in the French language.
